DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U.S. Pat. No. 2,870,823 to Staples (note especially Figures 1 & 3; column 2, lines 60-70 and column 3, lines 21-51).

3. Claims 1-5 and 8-13 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U.S. Pat. No. 3,733,625 to Platt et al. (note especially Figures 1-8; column 2, lines 9-20 & 40-51 and column 3, lines 16-56).

Response to Amendment

In response to Applicant's arguments on pages 13 and 14 of his amendment regarding the Staples '823 reference, the examiner respectfully asserts that Staples '823 discloses the claimed limitation of first and second end hooks 15 remaining free of contact with *an* inner portion of the first and second cross rails 10 (i.e., any inner portion of the first and second cross rails disposed between the first and second end hooks as well any of the lowest sections of any inner portion of the first and second cross rails as shown in Figures 2-4 of Staples '823). Claims in a pending

application should be given their broadest reasonable interpretation. *In re Pearson*, 181 USPQ 641 (CCPA 1974). Furthermore, in response to Applicant's arguments on pages 14 and 15 of his amendment concerning the Platt et al. '625 reference, the examiner respectfully asserts that Platt et al. '625 disclose the claimed limitation of *one or more* longitudinal steel wires 12, 14, 36, 40, 46 forming two ends which are hooks (as shown in Figures 1, 3, 7 & 8 of Platt et al. '625). Claims in a pending application should be given their broadest reasonable interpretation. *In re Pearson*, 181 USPQ 641 (CCPA 1974). Hence, the claim rejections under Staples '823 and Platt et al. '625 have been respectfully maintained.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
